HCR

# It's not just the door. It's what's behind it.

### Retail Overview

After more than 110 years, we know a thing or two about making a superior door.

JAMISON

## When you buy Jamison, you buy more than a door.

You buy the expertise and experience of a company with demonstrated leadership in the design and manufacture of doors for all types of environments. Our involvement dates back a century and has produced innovative solutions for every cooler and freezer requirement.

Our strong commitment to research and development, our engineering know-how, and our highly-skilled workforce enable us to successfully handle projects of any size or complexity. As a result, Jamison Doors are chosen most often throughout the food, pharmaceutical, and all other temperature-controlled industries.

# The world leader in cold storage doors.

# Overview

### Why Customers Choose Jamison

Since 1906, Jamison Door Company has pioneered the cold storage door industry in unsurpassed product quality, customer service, and technical support for our customers. We look forward to taking our long history of quality products into another century with you, our valued customer. We've worked hard to earn our reputation as the industry leader, and we're totally committed to 100% customer satisfaction.

Our products, service, and warranty are the strongest in the industry. Our entire customer service team, engineering department, and management staff will always be available to assure your complete satisfaction. If you have a concern or question related to your Jamison product, simply call us at 800.532.3667. We will find the right solution that meets your needs.

- S Each door is engineered for your application
- S Hand-constructed framing and quality hardware for a longer door life
- Special focus on gasket materials, design, and ease of installation
- Patented low friction Diamond-Trac System<sup>®</sup> making even large doors easy to move
- S-year limited warranty on all Mark IV<sup>®</sup> Doors and Plyfoam<sup>®</sup> Doors

### **Cold Storage Doors**

## Mark IV<sup>®</sup> Horizontal Sliding Doors

The industry's most popular door offers unique designs, features, and benefits that keep it in high demand for cooler and freezer applications. Mark IV doors, with their potential Diamond-Trac® Roller System, not only have the best quality but are also the longest-lasting doors. With a great variety of options available, this door is versatile and adaptable to most applications.

- S Manually-operated or with the Powertron® Operator
- S Hand-constructed framing and quality hardware enables a longer door life
- Special focus on gasket materials, design, and ease of installation
- Adjustable gaskets
- Superior sealing ability of our Diamond-Trac<sup>®</sup> Roller System
- 5-year limited warranty

I

### Cold Storage Doors Retail Pro<sup>TM</sup>

The Retail Pro<sup>™</sup> Single Leaf Manually Operated Horizontal Sliding Door is designed specifically for the needs of the retail industry for cooler and freezer applications. This door is a great option when customization or power operation is not required.

- Innovative low cost value design
- Incredibly smooth and quiet operation
- Bulb and blade double seal frame gaskets
- Same quality Diamond-Trac<sup>®</sup> Roller System of Mark IV door
- Special focus on gasket materials, design, and ease of installation
- 5-year limited warranty

### cold Storage Doors Smart Door

Smart Automatic Cooler and Freezer Doors bring down operating costs by making the doors 'smarter'. Tests have shown that by the use of the Smart Controller, doorways are no longer being left open by employees thus enabling maximum energy savings, reduced infiltration, and improved productivity. The strategic alliance between Tucker Auto-Mation, Boss Controls, and Jamison Door increases energy savings by equipping the sliding doors with microwave motion sensors, time delays, and / or Infrared presence sensors so the doors know when to open and when to close, hands free! Additional features include surveillance cameras and People Counting Systems.

- Maximized energy savings due to Smart Controller
- Improved safety and morale for team members
- Increased efficiency and productivity
- Lowered refrigeration maintenance costs
- S Enhanced space utilization and traffic management
- Reduced workers compensation and liability costs
- Diamond-Trac<sup>®</sup> Roller System
- 5-year limited warranty

### BMP

DynamicRoll® Retail

DynamicRoll<sup>®</sup> Retail high-speed soft bottom edge doors are fast, self-repairing, easy to clean, and completely safe. Custom window and full digital print solutions are available. DynamicRoll<sup>®</sup> Retail Door columns are made from galvanized or stainless steel.

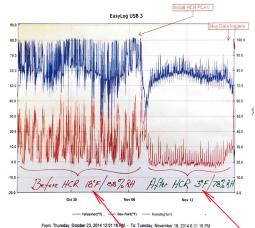

- Lowest energy cost design
- Fast with standard opening speeds up to 100" a second for most sizes
- Greatly improved facility productivity
- Inherently safe due to soft-bottomed edge and sensors
- Typically self-repairing when hit or knocked out of track
- Great seal of all 4 sides

The HCR PCAV Air Door is an air vestibule that dramatically reduces moisture infiltration into walk-in freezers. It is designed to hold design temperatures and eliminate the extreme temperature fluctuations caused by employees leaving the door open to load or unload product. The Air Door also eliminates ice problems, resulting in less evaporator maintenance, less general ice cleanup, and a much safer work environment while providing a quick return on investment.

- Reduced defrost cycles by 50-75%
- Prevents extreme temperature fluctuation
- Removed slip hazard for a safer employee environment
- Dramatically reduced refrigeration equipment maintenance costs
- Decreased clean up labor

# AC

Model AC is HCR's basic unit-Horizontal, Curvilinear, and Re-circulatory. Its air stream produces counterflow forces equal and opposite to the two-way flowthrough forces caused by air temperature differences. This unit maintains temperatures in open doorways between cooler-tocooler, cooler-to-ambient, and freezer-to-freezer open environments.

- Remarkably increased energy savings
- Significantly reduced two-way air exchange
- S Greatly diminished air infiltration
- Mixed air at the interface between room air and the air curtain's air stream
- Wide open environment with maintained temperature
- Can be used between two freezers without requiring any heat

#### Jamison History

It's no accident that the company known for the best cold storage and specialty doors around is made up of highly skilled engineers, craftsmen, factory staff and office employees who take immense pride in their work. Speaking of pride, Jamison was the first company in the state of Maryland to secure a Union Stamp, and decades later, we still enjoy a successful relationship with the Carpenters and Joiners Union of America.

It doesn't stop there. The Jamison Door family also encompasses a long list of retirees, suppliers, contractors, partners, product enthusiasts – and especially customers – who have made us what we are today. From the bottom of our hearts, we thank you for putting your faith in us.
