

## Another Jamison Success Story

Do & Co  
Redondo Beach, CA

Expansion Project with Hansen Cold Storage

### Project Overview

Do & Co is an Austrian catering company that is headquartered in Vienna. With facilities in 11 different countries across 3 continents, its location near the Los Angeles International Airport recently required renovation services. This kitchen facility provides first-class, onboard food catering to airlines serving worldwide destinations.

The renovation and improvement assignment of approximately 70,000 square feet included multiple freezer and cooler areas, dry storage, produce storage, and a bakery. With general design and construction services performed by McShane Construction Company, Hansen Cold Storage Construction completed the cold storage construction services. There were 65+ rooms where Hansen provided and installed custom black/white insulated metal panels, and custom black/white Jamison doors.

### Stats and Scope

## JAMISON DOOR™

- 38 Plyfoam II Single Swing Cooler Doors
- 2 Mark IV Single Horizontal Sliding Freezer Doors
- 1 Mark IV Single Horizontal Sliding Cooler Door

### Top 5 Favorite Project Features

*Steven Hansen Jr., Project Manager of Hansen Cold Storage Construction, shares his top project features:*

1. The client is European and Europeans are very strict when it comes to aesthetics. Jamison is an extremely trustworthy manufacturer when it comes to aesthetics and quality.
2. Jamison Door products have the least amount of call backs.
3. The functionality and design of the doors are solid and they last.
4. Jamison worked with our panel manufacturer so that everyone was on the same page ordering the proper custom black metal.
5. Jamison's support team is the best in the business. Everyone knows what they are doing.

*Jamison always provides an excellent product, from the shop drawings to the final fabrication. Their customer service is second to none. If there are any questions regarding installation or trouble shooting of their products they are always there to help."*
