

Another Jamison Success Story

Kraft Heinz
Davenport, IA

*New Construction Project
with Delta T Construction*

Project Overview

When Kraft Foods Group and H.J. Heinz Company merged in 2015, the resulting Kraft Heinz Company became what is the third-largest food and beverage company in North America and the fifth-largest food and beverage company in the world.

In order to grow its brands and enhance its capacity for innovation and product quality over the last few years, more than \$1.5 billion was invested in global manufacturing facilities. \$225 million of this investment went into the new 382,000 sq-ft. facility in Davenport, IA. This new facility is located across 70 acres and produces a range of Oscar Mayer deli meats. Total processing capacity includes 2.8 million pounds per week.

The Davenport facility was completed in several phases. Gray Construction was initially brought in to design and build the facility, and Delta T Construction completed the first phase of cold storage construction installing one of Jamison's largest orders to date. Sprinkmann Sons Corporation, Barron Equipment, and Total Construction Solutions were contracted for expansion phases.

Stats and Scope

JAMISON DOOR™

- (91) Mark IV Horizontal Single
- (30) Plyfoam II
- (10) Jamolite II

JAMISON JAMOTUF™

- (169) Jamotuf Doors
- (3) Jamoclean

Top Favorite Project Features

Shawn Tassie, Jamison Door Sales Representative, shares his top project features:

1. This was an area of heavy washdown that required a unique set of Jamison products.
2. A special washdown package was provided, including fiberglass doors with stainless hardware.
3. The ease of installation was critical due to the tight schedule Kraft needed to adhere to. Over 200 swing doors shipped pre-hung with the hardware already attached creating a quick, easy and hassle-free door installation.

We were able to ship and install 303 doors on a rather compressed schedule in order for Kraft to meet their important deadlines. Quality products at that quantity and speed is very significant.
